

Attention on the Deck!

Here are some activities 10 year old John Muir may have kept himself busy with while on a boat for 5 ½ weeks going to America.

Get Moving!

If you have a garden, ask the Captain at the Helm (Parent) if you are allowed to go out.

Run around the perimeter of your garden touching all the corners.

Keep doing this until your Captain thinks you've done enough.

If you don't have a garden, perhaps your Captain will give permission to run around touching the corners in each room of your home.

Now, collect something;

- * made of stone
- * made of wood
- * made of metal
- * blue
- * green

Can you put them on a piece of blank paper and make a picture out of them?
