

## Ship Ahoy

In February 1849 John and some of his family left Dunbar for a new life in America. They got on a train at the newly built Dunbar Railway Station and we to Glasgow, where they got on a boat called 'The Warren' that took them to America.

If we got on a boat in Dunbar today what might we see as we sail away?

Dunbar Castle

Kittiwakes nesting

Fishing boats coming in

Sammy the Seal

Draw what you see as you sail away, and post it with #JMBshipahoy and we'll post our favourites.

Here are a couple of photos to inspire you!
