

Story Stones

When out your daily walk, collect some medium sized stones, slightly smaller than the palm of your hand.

What you'll need:

- stones
- paint
- imagination

On each stone paint a character/ animal/landscape such as a forest or house

Put all the stones in a box, pull them out one at a time and tell a story based on what comes out.

When finished put all the stones back in the box, and pull them out again, you can tell a different story each time!
