

Tin Can Alley

(2 of 2 games using the same materials)

2 (a) Stand your tins on top of one another in the shape of a pyramid.

Stand the last orange (perhaps?!) on the very top tin.

The winner of the orange is the person who can knock it off the tin.

A kind winner might share the prize with all the players...?😊

Enjoy!

2 (b) Using sticky labels OR paper and sticky tape and a pen, number the tins 1-10.

Decide how many shots you each have. Let's say 5 shots each?

The object of the game is to achieve the highest score.

Take each shot in turn.

You'll need a pencil and piece of paper to help you count up and keep the score.

The winner might win a prize (if you have one?)

A kind winner might share the prize with all the players....😊

Enjoy!
