

## Why all the fuss about trees?!

### Day 3- The Trees Around My Home.

If you are lucky enough to pass trees, shrubs or plants on your daily exercise outings, take a good look.

See if you can memorise the shapes of the leaves.

Go home and research what trees or plants you have seen.

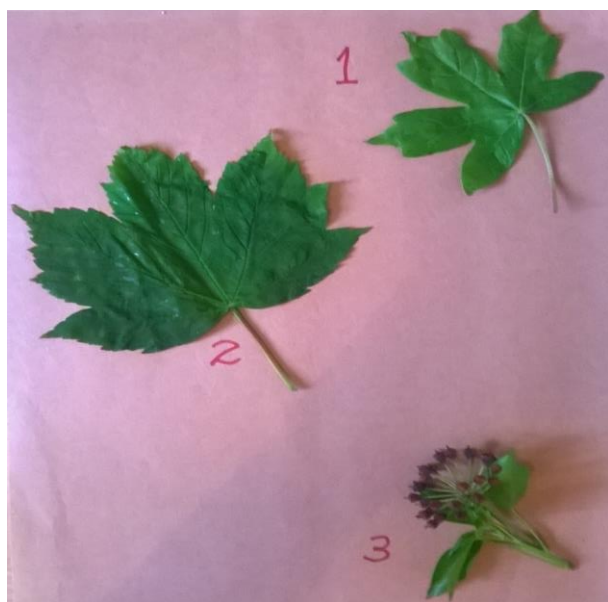

Send us photos and we will post the best ones.

Perhaps you can research where there is a giant Redwood tree (Sequoia) close to where you live? You can look forward to visiting it after the Lockdown is lifted. Here are some leaves from trees we found around John Muir's old home in Dunbar:

Can you work out what trees they come from?

Let us know what you think!

Er herm, actually, two of them are odd, (not from trees) 😊.

See if you can spot what they are.

Have fun!
