

## Uncover an Outdoor Den

### From Scruffy Corner to Glorious Den

Charlie is always peering into The Scruffy Corner of the garden.....

Hmmm.....what is going on in his mind...?

'What's in there...?' says Charlie...

'Oh no, don't look, Charlie! - It's such an awful mess! Old plant pots. Litter. Dead leaves and garden debris'.

But still, Charlie says, 'I'd like to go in there....I think it could be ANYthing.....A Cave. An Uninhabited Planet. A Secret Garden. A Shelter from the Rain. A Shade from the Sun. A Den!.....!'

And so we all set to work!

We cleared out the old plant pots and litter.

We carefully snipped away at the old dead branches of the undergrowth.

We raked up the dead leaves.

And just look what we uncovered!

We made it comfy and cosy with 'Dad's old Tarp', old rugs and a few cushions.

Charlie allowed his sister to join in with the adventures in his new, Glorious Den.

'If we sit quietly we can hear bees buzzing, birds fluttering and singing!' says Charlie.

Remember we built an Indoor Den/Shelter back on Day 56 ?

We could hang our Wildlife Mobile from our Indoor Shelter to help bring the outdoors in.

Dens provide us with a cosy place to go with a good book....or have a little snooze....zzz

We have to check with the Captain (Adult) first, so everyone knows where we are.

Stay Safe!

Have fun! 😊
