

Oftentimes on a broad meadow near Dunbar.....

Day 6

Make a Wildlife Mobile

Assemble the Wildlife Mobile

Let's look out all the lovely things we've made for our Wildlife Mobile?!

It might be a good idea to strengthen the Skylark by gluing it onto some scrap card?

When the glue is dry, carefully cut round the outline of your bird.

We found a Hatched Woodpigeon Egg which we attached to scrap card with a little tape!

We also found a lovely feather! Then we lost it. 😞

We used a hole punch to make a hole at the top of each thing.

We decided to use a wooden coat-hanger to hang everything from.

That way we can easily move our Mobile around our home or garden-it's a mobile Mobile!

Oh haha 😊

We carefully worked out what lengths to cut our string/wool for each thing.

That way everything is spread out nicely and clearly visible.

Please feel free to add more to it, whenever you can 😊

It looks really lovely hanging from the hedge.

We hope you've enjoyed making it as much as we have?!

Well done! 😊
